

Milkias Bekana

Full-Stack (FE-heavy) Developer | Remote Work Experience

mikagrace36@gmail.com +251929141227
Ethiopian 30 Jul 98
milkias-bekana-6905ba208 mbekana

SUMMARY

Motivated and skilled full-stack developer with a strong portfolio of web development projects. Experienced in developing robust and user-friendly applications using a variety of front-end and back-end technologies. Passionate about creating innovative solutions and leveraging the power of technology to deliver exceptional user experiences.

WORK EXPERIENCE

Full-Stack Developer (Remote)

Remote
Feb 2021 - Feb 2023
Remote

- Collaborated with distributed teams to develop and maintain web applications using JavaScript, Angular, and Spring Boot, ensuring seamless remote project execution and timely deliverables.
- Demonstrated excellent communication and coordination skills through remote collaboration tools, fostering effective teamwork and achieving project goals.
- Conducted code reviews and actively participated in agile development methodologies, ensuring high-quality code and meeting project objectives in a remote work setting.
- Employed best practices for remote work, including clear and concise communication, task prioritization, and self-motivation, resulting in increased productivity and successful project outcomes.

Programmer Analyst

Enat Bank S.C
Feb 2019 - Feb 2021
Addis Ababa, Ethiopia

- Developed and maintained web applications for Enat Bank SC, utilizing JavaScript (React, Angular, Node.js) and Java.
- Implemented NoSQL (MongoDB, Cassandra) and SQL (MySQL, PostgreSQL, MSSQL) databases for efficient data storage and retrieval.
- Collaborated with a team to design and implement RESTful APIs, ensuring seamless integration between frontend and backend systems.
- Used Git for version control and Jenkins for CI/CD, automating the build, test, and deployment processes.
- Designed microservices architecture for modular development, scalability, and fault tolerance.
- Conducted code reviews, troubleshooted technical issues, and provided timely resolutions.
- Practiced Agile methodologies, participating in daily stand-ups, sprint planning, and retrospectives.
- Kept up-to-date with emerging technologies, constantly improving skills and applying new techniques.

Junior Programmer

MINARCH Technologies
Jan 2018 - Jan 2019

- Collaborated on various software development projects as a junior full-stack developer.
- Contributed to the design and implementation phases of the projects.
- Assisted in improving user experience and interface design across different applications.
- Developed and maintained software components using a variety of technologies.
- Worked closely with the development team to conduct testing, troubleshoot issues, and implement updates.
- Utilized a range of tools and frameworks to enhance application functionality.
- Participated in the development and maintenance of integration points and APIs.
- Conducted research and analysis tasks to support project requirements.
- Contributed to the implementation of security measures and access control mechanisms.
- Provided regular updates and communicated relevant information to project stakeholders.

EDUCATION

Bachelor's Degree in Software Engineering

Addis Ababa Institute of Technology
20152019
Addis Ababa, Ethiopia

- Bachelor's degree in Software Engineering from Addis Ababa University.
- Acquired comprehensive knowledge of software development principles and practices.
- Developed a strong foundation in various programming languages and software engineering concepts.

PERSONAL SKILLS

Leadership	100%	Communication	100%
Self-motivation	100%	Decision Making	100%

LANGUAGES

COURSES

Front-End JavaScript Frameworks: Angular

Feb 2020
Johns Hopkins University (Coursera)

- Certified in Angular from Johns Hopkins University through the Front-End JavaScript Frameworks: Angular course on Coursera.
- Gained expertise in building web applications using Angular, a popular front-end JavaScript framework.
- Developed skills in creating responsive user interfaces, implementing data binding, and working with Angular components and services.

The Data Scientist's Toolbox

Jul 2022
Johns Hopkins University (Coursera)

- Completed "The Data Scientist's Toolbox" course, focusing on essential tools and techniques for data science.
- Acquired knowledge in data manipulation, analysis, and visualization using popular tools and programming languages.
- Developed skills in version control, data cleaning, and exploratory data analysis to derive insights from various datasets.

React + Redux

- 2021
Solo Learn
- Completed an online course on React and Redux through SoloLearn, a popular e-learning platform.
 - Gained a comprehensive understanding of React, a JavaScript library for building user interfaces, and Redux, a predictable state management tool.
 - Acquired practical knowledge of React's component-based architecture and how to effectively manage application state using Redux.
 - Developed proficiency in building interactive and responsive web applications using React and Redux concepts learned from the course.

Responsive Web Design

- 2020
Solo Learn
- Successfully completed a course on Responsive Web Design through SoloLearn, a renowned online learning platform.
 - Acquired a solid understanding of the principles and techniques involved in creating responsive websites that adapt to different screen sizes and devices.
 - Learned how to use CSS media queries, flexible grids, and fluid layouts to optimize the user experience across various devices.
 - Developed practical skills in implementing responsive design patterns, such as mobile-first development and responsive images, to ensure optimal usability and accessibility on different devices.

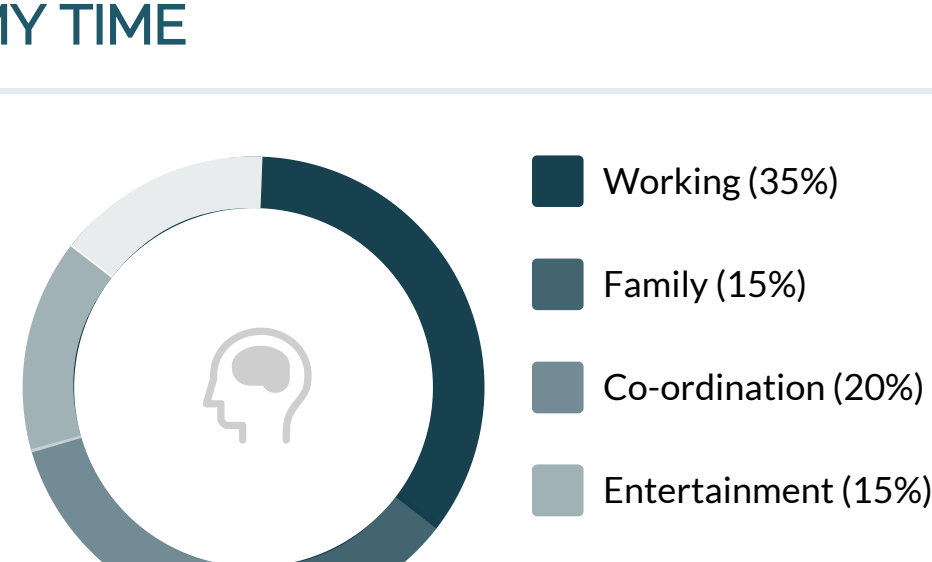

PostgreSQL Bootcamp : Go From Beginner To Advanced

- 2022
udemy
- Completed a comprehensive PostgreSQL Bootcamp on Udemy, a leading online learning platform.
 - Gained a strong foundation in PostgreSQL, a powerful and widely used open-source relational database management system.
 - Developed proficiency in database design, querying, and administration using PostgreSQL.
 - Acquired advanced skills in optimizing database performance, managing transactions, and implementing data security measures.
 - Learned best practices and industry standards for working with PostgreSQL databases, enabling efficient data storage and retrieval.
